McHenry County Scenic Roads Program

The Scenic Streets and Roads Program was established to recognize both roads and the surrounding features that create their character (the road corridor). The program can be applied to any type of road located in McHenry County, including city streets, residential streets and rural roads.

Completed application forms are reviewed by the McHenry County Historic Preservation Commission and the Scenic Streets and Roads Subcommittee, whose members consist of representatives from throughout McHenry County.

Scenic Streets and Roads designation does not “freeze” roads in time. Traffic and life safety issues continue to be addressed while those significant features are acknowledged. This program is intended to recognize roads that are important to the life of McHenry County.
