Randall Road Widening Project to Resume on May 28, 2009

Final paving work on Randall Road will take place from County Line Road north through Harnish Drive beginning May 28, 2009, weather permitting. The work will involve paving the final surface on Randall road with the exception of the southbound lanes north of Harnish Drive, which will be finished when the southbound right turn lane construction is completed. The paving work is anticipated to take 3-4 days and will be finished by early next week. Pavement marking will then follow after the paving is completed. The work is being undertaken by Algonquin Penny L.P. as part of required roadway improvements associated with the construction of the new Oakridge Court Shopping Center, located at the southwest corner of Randall Road and Harnish Drive in the Village of Algonquin. During the paving, lane closures will be necessary to allow for the paving operations. Anticipated lane closures will be posted in advance on message boards located within the project area. Motorists should allow for extra travel time during this phase of the project.
